Full Load and Groupage:

- Europe
- Deep Sea

The Company:

- Profile
- Office Details

PROJECT FORWARDING

Denholm Forwarding's Project Forwarding team provide the expertise within the logistics chain to enable the movement of goods and materials from multiple sources to ultimate delivery on site, often in remote destinations.

Often our staff work within the client's offices, liaising with engineers and procurement staff as to the most effective ways of moving cargo, often 'out-of-gauge' therefore requiring Heavy Lifts and Abnormal Load arrangements. Progress chasing with outside suppliers and status reporting to the client are daily tasks. Our specialist services include:

- Shipment by all modes
- Expediting Heavy Lift & Abnormal Loads
- Full & Part Charter
- Site Inspections
- On site attendance at destination
- Feasibility studies
- Route planning
