SEA FREIGHT

Sea Freight expertise lies at the heart of our freight forwarding services. Experienced personnel in each of our offices provide an efficient and professional service to ensure your sea freight requirements are met.

Our service covers freight forwarding to and from the UK and on a cross-trade basis with considerable experience in managing sea freight shipments from both China and India to US.

Cargo handled includes containers, both as full load or part load, out-of-gauge or conventional shipments. All shipments are handled on a door-to-door or a port-to-port basis dependant on the requirement.
